

PLUS offer the new generation Copyboard! Now the Copyboard N-20 Series are networkable!!

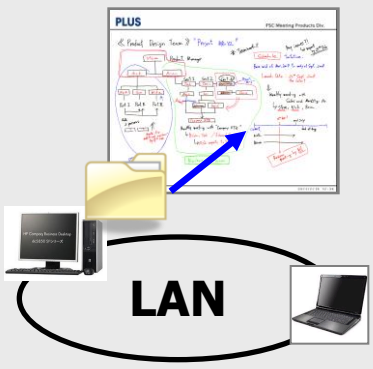

N-20 Series

- Two writing surfaces.
- Save to a USB Memory Stick in color.
- Control the board from your computer via LAN.
- Print directly from the board in color.

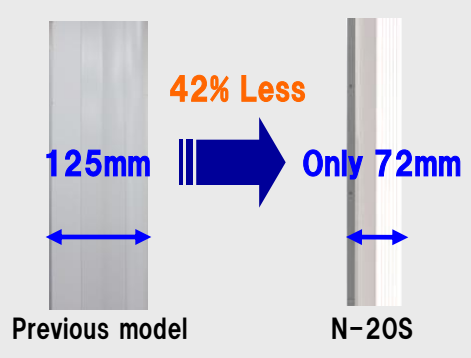

The more advanced Features

Networkable is greatly convenient!

Designate the N-20 or a computer as a data storage. By on-push operation, keep notes of your meeting in one place. Any computer can control the N-20 and access to a data storage with ID and Password!

The N-20, thinner than ever!

Now, width of the M-20 is almost half of the previous model. Incredibly thin N-20 can be neatly wall-mounted saving your meeting room space.

USB Port in FRONT

As the USB port for the USB Memory Stick is located in the front position of the board. Therefore, it is so easy to insert the USB Memory Stick.

The Eco-Friendly Design with the lowest power consumption.

The N-20 achieved the lowest power consumption in the industry (N-20S: 12W in Operation). This contributes to both your cost and environments.

More features

Simple PC Connection!

Simply connecting your computer to the board via USB cable allows you to save the contents on the board to your computer. No software is required. Now both PC and Mac are compatible with the N-20 Series!

Magnets attachable sheet

Magnets are attachable to the board for the first time to the sheet-type Copyboard. This feature makes your ways of meeting more flexible.

Note: Scanning is not possible when magnets are used.
